NEW SITE: NOW WITH RESPONSIVE DESIGN

It slices, it dices, it adjusts to the size of your screen. Well, maybe just the last part. I finally had an opportunity to redesign the VWS website using responsive design techniques. What does “Responsive Design” mean? Well, it means that no matter the size of your browser window or what device you are looking... [Keep On Reading »](#)

Logo design, web design & implementation, site administration, business cards, order forms

TOO MUCH INFO

THE LIFE & TIMES OF VWS

Verner Web Studio (WVS) was started 7 years ago in the fall of 2007. Over the years I've worked on too many projects to count for just about every type of site that exists in a variety of different industries - small business, non-profit, individual, blog, subscription, e-commerce, intranet, and I'm sure there's more. Let me put that vast experience to work for you.

GETTING PERSONAL

Quite nebbly aren't we? Not much to tell really. Let me introduce myself, Michael Verner — web designer and graphic designer by trade. I reside in Prosperity, PA (south of Pittsburgh). I'm a hard worker and a perfectionist. I appreciate when things not only look good, but work well, and I really love to cultivate ongoing relationships with all WVS clients to help them to surpass their ever evolving goals.

A BIT OF WHAT I DO...

Website Design & Development • E-commerce • Graphic Design • Logo Design • Brochure/Business Card Design • Online Advertising Design • Flash Applications • Digital Video • Search Engine Optimization (SEO) • Domain Registration & Hosting • Support & Updates • Content Management Systems (CMS) • WordPress, Drupal, and Expression Engine applications
